

HAS TIME COME FOR DENOUEMENT

Has Senior Senator Tried His Hand At Withdrawing Hatton Or McGovern?

REPORT TO THIS EFFECT CURRENT

Republican Club Of Racine Passes Resolutions To This Effect--Busy Time At The State Capital.

[SPECIAL TO THE GAZETTE.]
Milwaukee, Wis., July 30.—The Daily News says politicians who are close watchers of conditions in the state believe they saw the final hand of Senator Robert M. La Follette in several moves which have come to light since Sunday on the political chowdown presented by the Wisconsin senatorial contest.
It is stated that during his trip west Senator La Follette had watchers on whose accuracy he could depend make reports on the conditions in every county in the state. It is stated that from the text of those reports he decided that if both Messrs. Hatton and McGovern remain in the field there was a chance that a candidate not considered by them as favorable to Senator La Follette might win.
The reports it is stated declared that if the former vote came out the race was almost a certainty for Senator A. Cook of Neenah and according to these La Follette reports Mr. Cook was showing exceptional strength in the farming community.
These reports are responsible it is said for a quick movement taken Monday to get either Mr. Hatton or Mr. McGovern out of the field and this movement took form last night when the Lincoln club of Racine, which is a distinct La Follette organization, passed resolutions asking that letters be sent to both of these candidates asking that one or the other withdraw.
Friends of both Messrs. Hatton and McGovern say that neither will retire from the field now, as both have gone so far they cannot retire with honor. So far as the La Follette managers are concerned it is declared it would be their preference to have Mr. McGovern retire as they regard Mr. Hatton the stronger candidate of the two.
It was a conference on this suggestion which it is said caused the trip of W. H. Dick from Neenah to Racine yesterday with Senator La Follette.

BRYAN DISCUSSES NEW PARTY'S CREED

Says Many Parts of the Independence Platform Are the Same as Democratic.
[BY ASSOCIATED PRESS.]
Fairview, Lincoln, Neb., July 30.—Bryan today issued a statement in which he called attention to the similarity of many of the reform planks in the independence party platform to those embodied in the democratic platform, and says: "The question that must confront the members of the independence party is this: Will he assist in the defeat of the democratic party, which stands for much that he favors, merely because he cannot get all that he would like? Either the democratic party or republican party will win and the voter who, preferring the democratic platform, joins with the independence party merely assists the republican party and thus defeats the several reforms in which he is interested."

DEFAULTING TELLER NOT YET ARRESTED

May Be In Cleveland—Friends There Deny That They Knew Any-thing of Schulte.
[SPECIAL TO THE GAZETTE.]
Racine, Wis., July 30.—John Schulte, the paying teller of the First National bank, defaulter in the sum of \$15,000, has not yet been captured. The bank officials are of the opinion that Schulte did not use the money in speculation but that he simply took the \$15,000 during the past three weeks to settle up his debts. It being generally known that he borrowed considerable money with which to speculate in stocks, land deals, etc., the fact that he went into the vault about a half an hour before he left gives the bank officials reason to believe that he took out \$1200 in cash with which he departed. It was stated this morning that George Pratt, cashier of the bank, had received a letter from Schulte dated at Cleveland, Ohio. Mr. Pratt will neither affirm nor deny that such a letter was sent but it is known that such a letter has arrived. The fact has been further developed that before Schulte departed from the city he visited the postoffice and instructed one of the clerks to forward any mail that came to him from Cleveland to his address, Park Place, Cleveland, general delivery. One letter came and was sent back. The officials have reason to believe that Schulte was interested in stocks in this city and expected dividends from these stocks with which to repay the money he had taken. The dividends failed to come and he took the \$15,000 and absconded.

ANNIVERSARY OF LAW IS OBSERVED

Prohibition Law Passed In Georgia a Year Ago Today—In Operation Seven Months.
[SPECIAL TO THE GAZETTE.]
Atlanta, Ga., July 30.—The first anniversary of the passage of the prohibition law by the Georgia legislature was celebrated today by the W. C. T. U. and other temperance and prohibition organizations throughout the state. The law has been in operation seven months, but public opinion is still at variance as to its results on the moral and business interests of the state. The prohibition forces declare that the effect of the law has been of a most beneficial character, notwithstanding the fact that it has been found impossible so far to enforce it to the letter. The anti-prohibitionists, on the other hand, assert that prohibition has seriously injured the business interests of the state without giving any material benefits in return. They declare that the measure has resulted in increased corruption among public officials and that there is as much liquor consumed in Georgia now as ever there was under the old order of things. The only point which it seems cannot be disputed successfully is that the amount of crime, particularly in the larger cities, has been considerably lessened since the prohibition law went into operation last January. This argument in behalf of the law is supported by the police and court records of Atlanta and other cities.

BITTER FIGHT IS ON OVER LATE MILLIONAIRE'S ESTATE

Will Of Benjamin Hart To Come Up For Probate In Surrogate's Court Today.

[SPECIAL TO THE GAZETTE.]
New York, July 30.—The bitter promises to be one of the most bitterly contested will fights that New York has seen in many years was begun today when the will of Benjamin Hart, the American who died in Paris last May, leaving an estate valued at several million dollars, came up for probate in the Surrogate's Court. Before the case is settled there probably will be unfolded a tale of free love and an alleged "affinity" that will make exceedingly interesting reading.
Benjamin Hart amassed a fortune during the civil war as a clothing peddler, and increased it greatly by judicious investments in New York real estate. Thirty years ago he took up his residence in Paris, and five years later adopted an Italian child, Gabriello Josephine Lucchesi, who afterward came to be known as Isabel Hart. Later she married a French diplomat, Jean Guillemin. Some years later, Hart set up an establishment for a woman named Gabriello Juliette Antonette de Blo, who benefits largely by the present will.
Hart's friendship for this woman of the name of Gabriello de Blo, who is said to have been his mistress, was the subject of much gossip. He left her two art objects, which hequest he revealed in a codicil, which she gets nothing.
To make the situation more complex, last February a Mrs. Veitch, who said she lived at 21 Perry street, this city, declared that she was the wife of Hart, whom she said she married in London twenty-seven years ago. They lived together three years before separating. From that time she said Hart gave her a monthly allowance, she, as well as the adopted daughter, will contest the will. The third contestant is said to be Mrs. de Blo.
The beneficiaries named in the will, all of them being relatives, are Mary P. H. Jones of South Orange, N. J., a niece; Benjamin Hart of San Francisco, a nephew; Frances Broad of Chicago, a niece; Imogene V. Hart of South Orange, and Michael Hart of New York city.
In a codicil, the testator directed that "the annuity of \$16,000, which in my second codicil I did bequest to G. J. A. de Blo, shall be paid to her free of all possible taxes, assessments, commissions, or deductions."
In another codicil he bequeathed "to Gabriello Juliette Antonette de Blo my house and land at 29 Rue de Gallie, Paris, together with all personal property and affects in said house, except articles specifically bequeathed." He also directed that \$25,000 be paid to Mrs. de Blo, free of all taxes, immediately after his death. The residuary estate is to be created into a trust, the income from which is to be paid to his wife, Michael Hart.
Donald Harper, lawyer, is here from Paris to look after the interests of Mrs. Guillemin. Hart's adopted daughter, in the coming will contest, it will be claimed that Hart had always given his adopted daughter to understand that she would inherit the bulk of his millions and that they were always on most affectionate terms until the aged millionaire met Mrs. de Blo. One of the grounds for contesting the will will be that Mrs. de Blo exercised undue influence over him.

Mrs. William Brubakken Is Now Suffering From Blood Poisoning.

UP-TO-DATE FASHIONS

Bar Harbor, July 27.—As usual great use is made of the wide beautifully furnished veranda for which this place is famous, in the various forms of summer entertaining. Luncheons, card parties and even dinners are given in this informal and altogether charming setting for lovely women daintily gowned and the sweetest of men that are habitués of this delightful Maine resort.

The Newest Wraps
No previous season has shown so many models of veranda wraps and all are long surtouts for motoring and traveling. The silk rubber coats have been relegated to the limbo that always awaits the too popular style, and for similar use these are succeeded by loose, easily adjusted wraps of rough silk or crepe-de-chine.

The New Gauntlet Gloves
The new gauntlet gloves used for motor wear, have the cuffs of ample width prolonged in a sharp point at the back of the arm. Into these the sleeves of the coat are tucked and the effect gives length to the arm and

It is made in a wide range of the latest shades, and is therefore adapted to either street or evening gowns.
Smaller Collure Ornaments
At a dance given recently the absence of the very large spangled bows worn not so long ago by the fashionable was noticeable. A small tip of starch white, blue, red, black, or any color to harmonize with the gown nodding on top of the stem of a long hairpin was the most effective and popular ornament. Some threaded ribbons drawn through the collar and tied in a bow "a la Romney" were worn but this style has been spelled by the cheap imitation ribbon combs, so that most fashionable women have dropped it. A pity too for few more picturesque and becoming fads have been seen.

Neck Dressing and Lingerie
The prevalence of Dutch necks in all sorts of warm weather gowns has made the question of neck dressing of special importance and is largely accountable for the favor of the Plorot ruche. Women whose necks are

a very practical and fashionable trappings of appearance.

The Touch of Black
The touch of black that lends character and makes for beauty is seen in many of the little coats that are such a notable feature of the summer's gowns, and will be used all of next fall and winter for theaters and small dinners as well as for home wear. At a bridge party on one of the verandas on the bank the other afternoon a number of these small confections were worn. One of rose colored tulle with a tiny collar of black and buttons of the same color embroidered in a floral pattern of rose and green was especially pretty. This topped a gown of white voile striped with black, and was accompanied by a wide hat of black with airy trimmings of tulle and feathers. A little director's coat of shaded green silk, had trimmings of embroidered white tulle and was worn with a clinging skirt of the trimming material.

Tussock Royal—A Handsome Fabric
Tussock Royal is a brand new dress fabric from Priestley of England that will appeal to women who like an elegant-looking costume that will stand any sort of wear. This material looks like a very heavy crepe-de-chine, but is more brilliant, and is part fine mohair and part soft, flexible woolen thread, hence has the clinging quality demanded for "up-to-date" costumes.

WILL CONTINUE THE CHAUTAUQUA

LOCAL MEN WILL KEEP THINGS RUNNING UNTIL SUNDAY ANYWAY.

WAITING FOR HOLBROOK

Promoter of the Affair Has Not Been Heard From For Some Days—His Partner Writes.

Despite rumors to the contrary Rev. W. A. Goebel assures the Gazette that the present session of the Chautauquians will be kept running until Sunday at least and may complete the program arranged.

Rumors were rife last evening that the affair was going to close and some of the artists looked for part in the program insisted they would not appear if they did not receive their money.

Reports that the Chautauquians at Kalamazoo, Anderson, Indiana, and Muncie, all controlled by the Holbrook Amusement Company had gone under was verified and it is learned that Mr. Holbrook has been under a heavy financial loss for some weeks past. His partner in Valparaiso, Indiana, was communicated with and it is expected he will advance enough to clear all the expenses of the local meeting. Meanwhile Rev. W. A. Goebel, John H. Jones and Father Vaughan will endeavor to have the program carried out as planned and in addition Father Vaughan will give a reading on Friday, the hour not set.

Child Work
Yesterday morning there was an increase in the number of children who came to the Chautauquians for the drill which Miss Woolley gives. There were about seventy present, whose heretofore there have been only about thirty.

At ten-thirty Mr. Wright gave the regular morning Bible talk, his topic being "David" this morning. Mr. Wright has an excellent command of the English language and his diction is very fine. It is worth the time of everybody to hear the language which he uses. These Bible talks will be given every morning.

The first day for which Miss Woolley has been training the children will occur Saturday afternoon instead of Friday.

This afternoon Mrs. Alta R. Edwards opened the season with a short musical program that was exceptionally fine. Mrs. Edwards, who was to have given negro songs and sketches because of an accident in which her knee cap was broken, forcing her to cancel all of her engagements. Her place was well filled by her substitute, Miss Potter. Miss Potter is a niece of the late ex-President Cleveland. Miss Potter's entertainment was well enjoyed by a fair sized audience in spite of the warm weather for the tent was quite cool. Miss Potter's imitations of the French-Canadian and the southern negro dialects were very well given.

The crowds that have attended so far have been fairly large, large enough so that the management are not at all disappointed.

The dining-room service at the grounds is very good, the meals being well served.

For the comfort of the patrons the management have placed a couple barrels of ice water where it can be conveniently secured.

Win, Sterling Hat, the Dickens Man
Win, Sterling Hat, the Dickens man, was the attraction of last evening. Mr. Hatte gave "Life Portraits from Dickens." His work was highly instructive, giving an idea of the great novelist, his characters and stories and why he wrote them, and also among the most fascinating and delightful of entertainments. Mr. Hatte while telling each character made up to represent that character and then gave one of his speeches. Among others he represented Bill Sykes, Mr. Wickfield and Mr. Micawber.

Alta Beach Edmunds
A new feature of yesterday's program was the appearance of Mrs. Alta Beach Edmunds. Mrs. Edmunds was a well known actress, due to her rich voice and artistic manner of acting. Mrs. Edmunds has a contralto voice of good compass, fine timbre and quality which appeals to the heart. Mrs. Edmunds was a distinct addition to the Chautauquian program.

Francis P. Wendling
The lecture of Francis P. Wendling given Monday afternoon on "The Face Behind the Face" was pronounced by competent judges to have been one of the best talks of the year. It was a strong character talk that interested and held his audience.

KENOSHA FUGITIVE FOUND IN BOSTON

Man Charged with Stealing Six Thousand Dollars Some Time Ago Is Taken in Custody.

From Boston, Mass., comes the story of a Wisconsin man, who after having been trailed by detectives throughout the United States and Europe for nearly a year, Harvey T. Wells, 21 years of age, son of wealthy Kenosha, Wis., parents, today was arrested in East Cambridge on a charge of larceny of \$5,000 from the First National bank of Kenosha, of which he was the cashier.

Hardly had he been locked up in the Tombs, when a young woman, who claimed to be his wife, presented herself, stating that she had heard her husband had been arrested and that she desired to see him.

Elopes with English Girl
Wells disappeared on Oct. 7, 1907. The Pinkerton agency traced him to Chicago, then over the United States into Canada, and finally to Europe. While in Liverpool, it is reported, he fell in love with a girl, who was a member of the family of a rich retired trader.

When the fugitive was forced to leave the country through the activities of the Pinkertons, the young woman eloped to New York with him. It is said, from New York the couple traveled south, where young Wells was forced to seek employment.

After some time in the south the pair went to New York, but hardly had Wells got a job before he was discovered by the Pinkertons and forced to flee.

Another Woman in Case
Coming to Boston less than a week ago, he went to work for the Boston Gaslight company. Again the detectives located him. While being booked Wells said his folks probably would settle with the bank if they had not already done so. Pawn tickets for jewelry to the value of \$1,000 were found on him.

When Wells left Kenosha it is declared he was accompanied by a woman from Chicago and that she was the cause of it all.

TO SEEK REVISION OF OIL DECISION

PLAN ARRANGED AT A CONFERENCE AT LENOX, MASS.

NO TIME IS TO BE WASTED

Attorney General Bonaparte Tells Result of His Talks with Leading Government Prosecuting Officers.

Lenox, Mass., July 30.—After an all day conference of the leading government prosecuting officers and Frank B. Kellogg of Minnesota, one of the special counsel for the government in certain civil suits, it was announced by Attorney General Bonaparte Wednesday that every effort would be made to secure a revision of the recent decision and opinion of the United States circuit court of appeals in the case of the Standard Oil Company of Indiana, and that an application for a reargument of the case and a motion for a modification of the opinion would be submitted to that court.

Although no time is fixed, this action by the government will be taken at the earliest possible moment, while the pending prosecution against the Standard Oil company, and all other prosecutions in which the giving or receiving of rebates is charged, will be pressed to trial. The decision to take this action was unanimous on the part of the five men who participated in the conference.

Attorney General Bonaparte called to the conference Solicitor General H. M. Hoyt of Washington, Edwin M. Sims of Chicago, United States district attorney for the Northern district of Illinois; James H. Wilkerson of Chicago, Mr. Sims' first assistant, and Frank H. Kellogg of Minnesota.

Statement by Bonaparte.
The following statement was made by the attorney general:

"The government will make every effort in its power to secure a revision of the recent decision and opinion of the circuit court of appeals for the Seventh circuit in the case of the Standard Oil Company of Indiana, either by the court of appeals itself, or if necessary by the supreme court of the United States. The gentlemen who have been in consultation with me all unite in my opinion that in the interest of the impartial and effective administration of our laws, such action on the part of the government is imperatively demanded by the circumstances of the case and the possible consequences if this opinion should stand as authority without question by the government. To this end an application for a reargument of the case and a motion for a modification of the opinion will be submitted to the circuit court of appeals on the earliest possible moment. Other appropriate steps will be taken afterward, their character to be determined by the court's action upon this application."

"The pending prosecutions in which the giving or receiving of rebates or offenses of like character are charged will be pressed to trial and judgment by the government with all possible energy and as promptly as may be practicable. In the view of the government's legal advisers, the reversal of the judgment in the case recently decided in no way affects the merits of that controversy or the necessity and duty of bringing to punishment, if possible, in this and any other cases, any individual or corporation shown to have evaded or defied the laws."

WOMAN MURDERED AND BODY BURNED
SHOCKING CRIME IS PUZZLE FOR NEW YORK POLICE.
SCAPULAR IS ONLY CLEW

Foul Play Suspected in Drowning of Mr. and Mrs. Ralsbeck in Lake Sylvia, Minn.—Sota.

New York, July 30.—In the finding of the half-charred body of a young woman early Wednesday morning in an isolated section of Williamsburg, Brooklyn, one of the most atrocious and cunningly-planned murders that has been given to the police to solve in many years was revealed.

Death was caused by a cut across the throat, and then in an endeavor to utterly destroy all evidences of the crime the murderer or murderers wrapped the body in an oil-soaked mattress, poured oil over the victim's clothing, and set fire to the bundle. A powerful acid had previously been poured over the face to obliterate the woman's features and make identification impossible.

Death was caused by a cut across the throat, and then in an endeavor to utterly destroy all evidences of the crime the murderer or murderers wrapped the body in an oil-soaked mattress, poured oil over the victim's clothing, and set fire to the bundle. A powerful acid had previously been poured over the face to obliterate the woman's features and make identification impossible.

Although two arrests have been made, the police do not believe they have in custody anyone who can shed any light on the mystery. The prisoners are James Riddick, an old man who lived in a stable not far away from where the body was found, and his son, Joseph, a peddler, who delivered the body.

Only Clew is a Scapular.
A scapular was found on the murdered woman's breast and this is about the only clew the police have. It was home-made and larger than is ordinarily worn. With this slight clew the police hope to discover the identity of the victim. It was considered remarkable that the scapular was not burned for it was oil-soaked and the clothing over it was burned.

A woman has been found who says that she heard a wagon drive to the spot where the body was found, about 3:30 o'clock Wednesday morning. A few minutes later she heard the wagon being driven rapidly away.

The murdered woman was apparently of gentle breeding for she had soft, fine hair which looked as though it had received good care, and the

particles of clothing found were of good material. She was about 30 years old and had been a mother.

Looks Like Case of Murder.
Annandale, Minn., July 30.—A sinister aspect was given to the case of the drowning of Mr. and Mrs. George A. Ralsbeck of New York Monday night at Lake Sylvia, three miles from here, when it became known Wednesday that Mrs. Ralsbeck's body had been found in about three feet of water in a kneeling position and that she had a long bruise on the side of her face which cut her upper lip and one extending down on her throat under the ear. It was also learned that there was no water in her lungs.

Dr. Ridgway, who examined the woman's body, said that neither of the bruises on the head would necessarily have caused death, yet the fact that no water was found in the woman's lungs led him to believe that her death was not caused by drowning.

The body of Mr. Ralsbeck was found farther out in the lake in about 30 feet of water. The supposition here is that the woman was stunned by the blows and dragged or thrown into the lake.

The boat in which the couple had gone fishing was found right side up and the fishing tackle inside of it in good order thus indicating that the boat had not been accidentally overturned.

"PERSIAN MIRABEAU" SLAIN.
Nationalist Leader Killed, Presumably by Agents of Shah.

Teheran, July 30.—Sayyid Muhammad, the Nationalist leader and the foremost orator of the recent parliament, called the "Persian Mirabeau," has been assassinated at Annandale, which is about 165 miles from Teheran. Sayyid Muhammad went to Annandale after leaving the British legation, where he had taken refuge. Prior to this he was among those captured by the Cossacks after the fight which raged around the parliament buildings in Teheran during the latter part of June. It is supposed that the deed was committed by agents of the shah.

Kenosha Fugitive Caught.
Boston, July 30.—Frank T. Wells, aged 21, of Kenosha, Wis., was arrested late Wednesday in Cambridge as a fugitive from justice. He is said by the police to be wanted at Kenosha on the charge of larceny of \$5,000 from the First National bank of that place, on October 12, 1907.

G. W. SANDS MEETS HORRIBLE DEATH

VANDERBILT'S STEPSON DIES IN AUTOMOBILE ACCIDENT.

IS CRUSHED AND BURNED

Smash-up and Explosion of Motor Car Occurs Near Stepfather's Beautiful Country Seat in France.

Paris, July 30.—In one of the most terrible automobile accidents in many years in France G. Winthrop Sands, a stepson of W. K. Vanderbilt, was killed Wednesday morning just outside the grounds of Mr. Vanderbilt's beautiful country seat, the "Chateau St. Louis Du Plessy," 20 miles from Paris. Mr. Sands was driving his 60-horsepower car along at a terrific clip, in a desire to reach the chateau, where Mrs. Sands and her infant daughter were staying. He had always been known as a reckless driver and, as he had been delayed at railroad crossings, he opened the throttle wide as he approached the chateau grounds.

Almost immediately a tire burst and the machine crashed into a tree, turning turtle and burying Mr. Sands under the forward part and plowing the chauffeur, Pickins, to the ground. An explosion followed and in a moment the car was in flames.

Passants Give Tardy Help.
Passants working in the adjoining fields were the only witnesses to the accident. They rushed to the rescue, but fearing a further explosion of the gasoline tank and deterred by the sweep of flames, they stood idly by, not knowing how to give assistance to the injured men. Finally they managed to raise the rear of the car and release the chauffeur, and a little later, after beating down the fire, they dragged out the torn, bleeding and burned body of Sands.

Help soon arrived from the chateau, which is in the center of Mr. Vanderbilt's great breeding farm. The injured men were carried to the house, where it was found that Sands was beyond the hope of recovery, but that the chauffeur was not seriously injured.

Sands Pitifully Mutilated.
The servants, fearing the effect on Mrs. Sands, concealed from her the gravity of the accident, and persuaded her not to enter the room where her dying husband had been placed. A doctor summoned from Plessy arrived soon afterwards, but Mr. Sands was beyond mortal aid. Never had he seen the doctor said, such a pitiful human wreck. The stump of the leg had been burned to a crisp, the face and body were black and seared with flames. In addition to terrible internal injuries, Mr. Sands' right arm and shoulder were broken. The physician could only try to alleviate his sufferings with opiates. Several times the man regained consciousness and cried out in agony, his last words being a cry for water.

Mrs. Vanderbilt broke the news to her daughter-in-law, who bore up bravely under the strain. Telegrams and condolences began to arrive late in the afternoon and a score of automobiles drove out from Paris.

Manitoba Needs 30,000 Men.
Winnipeg, Man., July 30.—The Manitoba government announced Wednesday that 30,000 men are needed to harvest the wheat crop in western Canada and recommended to the governors of all the states that all men in prison for vagrancy and other minor offenses be released early next month on condition that they work in the harvest fields.

Nashville, Tenn.,—John Wesley Gaines, who has represented the Sixth Tennessee district in congress for the past 12 years, was defeated at the democratic primaries by Joseph W. Barnes, attorney, of this city.

Speaking seriously, John Wesley Gaines has had a spectacular and stirring career in the house. He was always on the spot and was known as the greatest worker in the house. He has really been most useful, and it is unfortunate that so valuable a man could not be retained, although it is freely predicted in Tennessee that Mr. Barnes, his successor, will be an even greater power than John Wesley has been.
